

NITTO KOGYO CORPORATION to Exhibit at HANNOVER MESSE 2023, One of World's Largest Trade Fairs, Dedicated to Topic of Industry Development

NITTO KOGYO CORPORATION will run a booth at HANNOVER MESSE 2023 that will be held from 17th to 21st April 2023 in Hannover, Germany.

HANNOVER MESSE is one of the largest international trade fair for the industry. World's leading companies from the mechanical engineering, electrical engineering, logistics and energy industries, as well as from the software and IT sectors, will be showing how the transformation to digitalized, resource-efficient and climate-neutral production can succeed.

NITTO KOGYO CORPORATION, under the key concept of "Ensure safety of electricity", will show Spark Discharge Detection Device which detects spark discharge to prevent electrical fire and Hot-Swappable Plug-In System which enhances safety of hot-line work.

We have been and always will be striving to contribute to the safe and secure future in the world. During the fair, we would like to show our technology to the entire world and hear opinions of professionals from all fields as well.

We hope you pay a visit to our stand when you come to the fair.
