

NITTO KOGYO to participate in MANUFACTURING INDONESIA 2024

NITTO KOGYO CORPORATION participate in MANUFACTURING INDONESIA 2024, which will be held from 4th to 7th December 2024 in Jakarta, Indonesia.

MANUFACTURING INDONESIA is the largest exhibition in Indonesia related to manufacturing, machine tools, parts and industrial automation sectors, and it is the 33rd time the event is held.

NITTO KOGYO showcase the electrical enclosures and the panel parts that are widely used in manufacturing sites all over the world because of their reliability and quality. In addition, we exhibit Spark Discharge Detection Device that helps prevent electrical fires, under the key concept of “Ensure safety of electricity”.

The vision of NITTO KOGYO GROUP is to always strive to find solutions to problems with sincerity and keep taking on new challenges to bring new values. We are excited about the opportunity to present our unique solution to the South Asian countries where frequent occurrence of electrical fires is one of the major issues in the society.

We are looking forward to meeting you at MANUFACTURING INDONESIA 2024.
